LABOUR GAZETTE

Started in 1921, the *Labour Gazette*, issued monthly, is a journal for the use of all interested in obtaining prompt and accurate information on matters specially affecting labour in India and abroad. It contains statistical and other information on consumer price index numbers for working class, industrial disputes, industrial relations, cases under labour laws, labour legislation, etc. Special articles on labour etc., are published from time to time.

Annual subscription for the year Sept. 1978—Aug. 1979 is being accepted at Rs. 12.

All amounts are payable in advance in Bombay, in full, either by M.O. or Cheques/Drafts drawn on Bombay Banks.

ALL CORRESPONDENCE AND REMITTANCES SHOULD BE ADDRESSED TO :

The Commissioner of Labour,
"Commerce Centre", Tardeo, Bombay-34 : WB (India).

The Month in Brief

Consumer Price Index Numbers for Working Class :—

The Bombay, Solapur and Nagpur Consumer Price Index Numbers for working class for the month of July 1979 with average prices for the year ended December 1960 equal to 100 were 351, 368 and 346 respectively. The Jalgaon, Nanded, Pune and Aurangabad Consumer Price Index Numbers for working class for the month of July 1979 with the average prices for the year ended December 1961 equal to 100 were 353, 363, 328 and 379 respectively.

All India Average Consumer Price Index Numbers for Industrial Workers :—

All India Average Consumer Price Index Number for Industrial Workers (General) on Base 1960 = 100 for July 1979 was 353 as compared to 345 in June 1979. The Index Number for July 1979 on Base 1949 = 100 derived from 1960 based Index worked out to 429 as against 419 for June 1979.

Industrial Disputes in Maharashtra State :—

During June 1979, there were 30 disputes involving 3,583 workmen and a time loss of 53,176 mandays as compared to 26 disputed in May 1979 involving 7,618 workmen and a time loss of 52,248 mandays. Further particulars of Industrial Disputes are given at pages 88 and 89 of this issue.

Benefits under the Employees' State Insurance Scheme :—

During the month of July 1979, 6722 insured Persons received Rs. 13,38,141.95 cash benefits due to employment injuries. This includes 2,226 persons who were in receipt of pensions for permanent disablement and 9,222 who were in respect of Dependent Benefit as dependent's of deceased Insured persons. During the month, 8,592 accidents were reported as against 9,706 during the preceding month.

Current Notes

Partnership in Industrial Relations Vital for Progress, says ILO Director-General
An increased role for employers' and workers' organisations in solving Industrial relations problems was one of the conditions for progress in modern society Director-General Francis Blanchard of the International Labour Office said in Paris today.

Techniques of participation must therefore be improved and their scope widened, he told the Fifth World Congress of the International Industrial Relations Association. The prime aim was to maintain the ideals and strengthen the structure of society founded on freedom and responsibility.

Negotiators on both sides were under mounting pressures and constraints, he said. On one hand more direct and effective pressure was being felt in the determination of employment and working conditions. At the same time employers' and workers' organisations were under constraints from governments seeking to keep wage agreements within the bounds of economic plans and measures to hold down inflation and unemployment.

The big questions, said Mr. Blanchard, were how to meet the rising hopes of workers for greater equity and security, and how to preserve the voluntary character of negotiations in the face of often imperative prices and income policies.

There were also problems of avoiding the risk of aggravation of industrial disputes, particularly wildcat strikes, and of reconciling sectoral and general interests by means of tripartite negotiation at the highest level.

Were the problems brought on by the present crisis, he asked, of such a nature that they called for a revision of the concepts and procedures of industrial relations practice?

In an effort to bring together all the elements of an answer to these questions the ILO was co-operating closely with research bodies and practitioners in all regions, through its major programme of industrial relations, in order to arrive at a clearer understanding of problems and to work out practical solutions.

In response to a resolution adopted by the International Labour Conference last June the ILO was preparing to step up its action, in particular to find formulas for applying universally valid principles to greatly varied national situations.

The Organisation would increase its co-operation with industrially advanced countries to adopt industrial relations techniques and practices to meet the great problems of the future, said Mr. Blanchard. It was also intensifying co-operation with developing countries, paying special attention to the informal and small enterprise sectors.

(ILO Press Release, Dated 3rd September 1979).

Selective Approach towards computerisation

The Energy Minister, Shri K. C. Pant, has asked for a selective approach in the adoption of computerisation in India. He said that the introduction of computer technology in India has always evoked mixed reactions. Some feel that computers will displace men and thereby add to unemployment. Others point to the experience of advanced countries where computerisation has led to employment of more skilled technicians and larger employment in the economy. The Minister said that the advantages of computerisation would clearly outweigh the negative factors.

Shri Pant was inaugurating an international symposium on computer applications in large scale power systems here today. The symposium has been sponsored by the International Federation of Automatic Control and organised by the Institution of Engineers (India).

Shri Pant said that we were reaching a stage where computers could be beneficially used. He said that India had, at present an installed generating capacity of nearly 29,000 mw and another 15,000 mw was targeted to be added in the current plan period.

Referring to application of computers in India, the Minister said that the use of computers to prepare operation schedules were being developed. The net work planning which had become complex was being done through computer applications some utilities had started using computers for consumer billing. Thus application of computers in the power system was gradually going up, the Minister added.

Shri Pant said that power development was a highly capital intensive activity and expansion of power supply facility accounted for the bulk of the development in the State Plan. Nearly 23 per cent. of the current plan outlay would be for the power sector, Shri Pant added.

Training Scheme for Rural Youth

A comprehensive programme to train two lakh rural youth every year in agriculture and allied fields for self-employment has been finalised by the Union Ministry of Agriculture and Irrigation. The programme is to be launched on August 15, 1979.

The National Scheme of Training Rural Youth for Self-Employment (TRYSEM) will cover rural areas throughout the country in each of the 5,000 development blocks and train at least 40 persons every year.

The main thrust of the scheme will be on equipping rural youth with necessary skills and technology to enable them to seek self-employment. After the completion of training, the trainees will be given appropriate support from Government for setting up their own enterprises.

An important part of the training programme is the identification of the various fields and sectors of activities where there is considerable scope for gainful self-employment. This will be best done at the district/block level since training will be related to the local needs and potentialities. For strengthening the essential infrastructure of training institutions run by the Central Government and by organisations under it, as well as agricultural

(Industrial Bulletin, Dated 15th August 1979).

Bonus for Good Behaviour Likely

According to the Union Minister of Labour, Mr. Fazlur Rahman, the Centre is contemplating linking bonus with either good behaviour, good attendance or good production. Mr. Rahman said on August 6th, 1979 that either an Ordinance would be promulgated or a Bill brought before Parliament soon. This would, however, not affect the payment of bonus for last year.

(Industrial Bulletin, dated 15th August 1979)

PF Scheme for Karala Farm Workers Inaugurated

A provident fund scheme for agricultural workers, the first of its kind in the country, was inaugurated on August 10, 1979 by the Kerala Chief Minister. The scheme, started in the Palghat District initially, is proposed to be extended to all the districts in due course and is expected to benefit about 20-lakh agricultural labourers in Kerala. The Chief Minister said that the workers, employed by farmers with a holding of one hectare and below, would not be covered by the scheme.

(Industrial Bulletin, dated 15th August 1979).

Productivity and Bargaining

Workers in U.S. Manufacturing each produced an average of 32,000 worth of goods and services in 1978. That's about twice as much as was produced by each worker in 1950 in dollars corrected for inflation.

Understanding why workers produce more can lead to policies which help to raise living standards. But "increased productivity" is all too often a catch phrase and excuse for a variety of attacks on unions, laws protecting worker health, safety and the environment, the tax structure and essential public facilities and services.

Productivity will increase when better ways are found to produce and distribute goods and services enabling each worker to produce more in each hour worked. Productivity can be improved by the use of new and better machinery, better scheduling of work flows or a better-education and better-trained workforce.

All of these can be beneficial because they are a source of improved living standards—if the benefits are shared and distributed equally. Unfortunately some people say they want to increase productivity when they mean they just want to increase someone's workload.

Productivity is a measure of efficiency and is determined by dividing the goods produced by the number of hours worked. If a worker produces 200 widgets in 40 hours, the productivity is five widgets per hour. It's not much different than determining the efficiency of a baseball hitter whose batting

average is determined by the number of times at bat.

Productivity gains a lot of higher wages, more improvement in living standards, effects on workers and production methods are

Collective bargaining opportunities of increase helps workers and the human protections are

Financial compensation scheme and the beneficiaries. setting up a new system operated, institute a more equitable benefit incentives to take up begun between employees of disagreement. The

average is determined by dividing the goods produced (base hits) by the number of times at bat.

Productivity gains are fundamental to economic growth and are a source of higher wages, more holidays and vacations, earlier retirement and general improvement in living standards. Productivity increase can also have destructive effects on workers and their jobs, so workers have a vital interest in how new production methods are introduced in the workplace.

Collective bargaining plays a crucial role in meeting both the dangers and opportunities of increased productivity. The flexibility of collective bargaining helps workers and their unions to settle with employers on reasonable and humane protections against the adverse effects of new production methods.

But the union role of protecting workers from the adverse impact of productivity is only one dimension of the collective bargaining agreement, which also does much to stimulate productivity. The needed protections, in such areas as job safety, can themselves contribute mightily to productivity gains by reducing time lost to injuries. And the stability brought to the workforce through acceptance of seniority, the grievance procedure or other standard features of a collective bargaining contract can contribute to worker morale and consequently to productivity.

(AFL-CC 10, dated 26th May, 1979).

French Legislation on Unemployment Benefits

Act No. 79-32 of January 16, 1979 governing unemployment assistance in France revises the system of unemployment compensation and sets out a new Framework for establishing benefits. The procedures for implementing the new scheme must be worked out by the two sides of industry responsible for UNEDIC, the joint unemployment insurance agency, in the three months following publication of the Act. However, if there is no agreement during this time, a solution will be imposed, with immediate effect, by decree of the Council of State. The present unemployment benefit system was set up by Ordinance No. 67-580 of July 13, 1967, which brought in comprehensive public assistance (flatrate benefits subject to means test) and extended the scope of the unemployment insurance scheme (earnings-related benefits) established by the agreement of December 31, 1958 setting up the UNEDIC scheme. Changes in the employment situation, particularly since 1974, and the substantial increase in unemployment resulting from these changes (a record figure of 1,344,100 in October, 1978), have created financial difficulties for the unemployment insurance scheme. Further complications arose from the coexistence of two compensation schemes, causing inconvenience to both the fund operators and the beneficiaries. Realising the need for reform, the Government, proposed setting up a new system to meet the following criteria: it should be jointly operated, institute a single source of compensation, be more simple, grant more equitable benefits and take into consideration the need to provide greater incentives to take up work again. Although negotiations along these lines were begun between employers and unions in June 1978, they broke down because of disagreement. The Government therefore went ahead and submitted a bill

to Parliament in December 1978, which was adopted at the beginning of January 1979.

The characteristics of the new unemployment benefit system are described below :

Institution of a single scheme. In future all benefits will be paid from the same source. Public assistance will be abolished, and the State will pay UNEDIC a subsidy equal to the budgetary appropriations earmarked for public assistance (7,000 million francs in 1979 : 1 US dollar = 4.15 French francs), which will subsequently vary at the same rate as the total contributions from employers and wage earners. In future there will be three main types of allowance, instead of half a dozen : the basic allowance, payable to all workers dismissed other than for economic reasons who are not entitled either to the special allowance nor to the income maintenance allowance : there will be a ceiling and a time limit and it may vary according to the workers' age.

The special allowance payable for a maximum of 12 months to workers under 60 years of age dismissed for economic reasons. Its amount is digressive on a quarterly basis, but it may not be less than 90 per cent of the average minimum growth wage. Recipients of this allowance who return to work will be entitled to a retraining incentive bonus.

The income maintenance allowance payable to wage earners aged 60 or over. Moreover, during a limited period, special categories of workers, e.g. young job seekers aged 16 years or over, women who for not more than two years have been widowed, divorced, legally separated or single with at least one dependent child, and former prisoners, may receive a flat-rate allowance, provided they have completed initial training or followed a course of practical training.

The scheme will cover all wage earners. Every employer within an area covered by the national interoccupational scheme of special allowances for unemployed workers in industry and commerce is required to insure against loss of employment all wage earners employed under a contract of employment, including those detached or working permanently overseas.

(Industrial Bulletin, dated 1st August 1979).

Proposed Retirement Age in Japan

The Labour Ministry has proposed the extension of compulsory retirement age and a thorough review of seniority based wage systems to improve the employment situation for middle-aged and elderly people and their standard of living.

In the 1979 White Paper on labour, the ministry said the employment situation had improved as a whole in 1978, but it had become increasingly difficult for elderly workers to find new jobs after retirement.

The number of new job offers made in 1978 showed an increase of 6.3 per cent from the previous year, but it became more difficult for older people to find new jobs as a result of marked rise in the number of jobs seekers aged 45

or older, the White Paper said. The paper is subtitled "An Analysis of the Labour Economy in 1978."

The deterioration in employment chances for older workers in contrast to the improved general employment picture was attributed to the fact that most enterprises tried to dismiss older workers first in carrying out cost-reduction efforts. Also most businesses set the compulsory retirement age limit between 55 and 60.

The White Paper, presented by Labour Minister, Mr. Yuko Kurihara, said that this is because continued employment of older workers involves payment of bigger wages, resulting in increased personnel costs.

The reduction in such costs is the most effective method for improving employment prospects for older workers, the paper asserted. The retirement age limit should be extended to 60 by 1985 in line with an increase in the number of aged persons in the Japanese society, it said.

As a means of achieving this goal, the White Paper advanced a proposal calling on enterprises to give little or no pay increase to workers aged 45 or older in exchange for the extension of the retirement age to 60.

The White Paper expressed the hope that both management and labour thoroughly study the feasibility of the proposal. According to Labour Ministry calculations, the paper said, the amount of income of workers agreeing to no pay increase after 45 would virtually equal that of earnings of workers who retire from a company at 55 and continue to work at a different company until 60.

PLANNING, EMPLOYMENT AND EDUCATION

By

S. S. TINAIKAR

Secretary, Employment, Education and Youth Services

Nearly three decades of national planning in this country has awakened us to a startling realisation that mere large investments in capital goods or stocks, which might give rise to an overall increase of national income is no indication of economic balance and social progress of a country. Such heavy investments have actually proved to have resulted in relatively poor or marginal growth in consumption well being of the population. It is now realised that, unless special efforts are made and strategies designed to ensure distributive justice, the fruits of economic growth may be restricted to increasingly smaller numbers, who have already the necessary assets and resources, and it may lead to the obvious increasing of the disparities. The imbalances that have already come to light are evident not only between high capital stock, on the one hand and the poor wage goods, on the other or high wages in the organised sector as against subsistence level in the unorganised sector, but also in the educational field where high technological advancement, as indicated by growth rate of higher technological education, as against the vast sea of illiteracy or semi-literacy.

HUMAN RESOURCE

It is true that the productivity of a human being is intrinsically connected with the extent to which he displays the knowledge and the skill in his economic activity. Indeed, some recent studies of highly developed countries like the United States, Great Britain and Japan made at finding out the exact contribution of the technology as also human skill in the total productivity and growth of the country indicate that investment in the development of skills, knowledge as also health of workers is as important as investment in capital goods, and that human resource is an important "capital" in economic development. In the growth of American economy, according to one study, only 10 per cent is attributed to the growth in population and physical resources, and the remaining 90 per cent is credited to residual factors, in which technological progress takes a substantial measure. In the progress of the manufacturing industries of Great Britain after the Second World War, only 25 per cent is attributed to the capital and labour and the rest to greater technological inputs, including higher skills, while in the case of Japan, over a period of nearly 25 years, the increase of educational capital is believed to have contributed 25 per cent of the increase

in national income. In general, educational capital has grown many times faster than the non-human capital. It must however, be noted that high technological demands of economy preceded or kept pace with growth in higher and technological education.

These studies, however, must be taken with a good deal of reservation in their application to the Indian context. In our country, and particularly in Maharashtra State, the spread of general education appears to have promoted greater wastage and unemployment, more particularly because the "elite consciousness" which the present education breeds, and the institutional and social framework within which it is imparted, at present, is totally irrelevant to the level as also the demand of our economy. In all forms of education, improving attitudes is as important as imparting skills. As recent study of some tribal villages of Nashik district in this State, under the aegis of the International Labour Organisation, showed the percentage of total unemployment among the educated boys was very high as against the general unemployment that prevailed; indeed, there was really no total un-employment among the uneducated, though there was heavy under employment or poverty. Strangely, the educated boys would refuse to work at low wages in the Agriculture Sector and look to salaried employment in the Service Sector. This, by no means, is an exceptional revelation; it only re-establishes the deleterious effect of education in heightening the expectations of the educated people, and their refusal to be reconciled to either low wages or to menial jobs. It has been well established that, like the general high inflation on account of heavy investment in capital goods, with the consequential reduction of value of money per unit of real capital in the educational field also, the large spread of higher education and technological skills, far higher than demanded by the labour market or the State of economy, as devalued education and has under employed the knowledge and the skills. In view of the large costs involved in the provision of higher technical education of over Rs. 3,000 per year for training an artisan in the Industrial Training Institute or for engineering college education, as against Rs. 157 per primary education, Rs. 314 for secondary education and Rs. 627 for Arts, Science and Commerce Education for a student in Maharashtra there is a school of thought which questions the propriety of giving public subsidy to higher education, this approach derives its force from the fact that barely 1.3 per cent of our working population is at the level of graduates and above that except in technological or professional degree-holders the percentage among other graduates who do not seek work is as high as 26 per cent and further the growing unemployment among them, and their inability to adjust themselves to the demands of our economy. The problem of reforming education is not quantitative one of providing more schools, it is a problem of eliminating mis-education and largescale waste of educational resources.

GROWTH OF HIGHER EDUCATION

In Maharashtra State, as in the country as a whole the higher education is growing at a much rapid rate than the primary and secondary education, as will be borne out by the following table. While the enrollment in the primary education increased after 1961 by only 86 per cent, it increased by 316 per cent in secondary education and 461 per cent in higher education till 1978.

Serial No.	Type of education	1960-61	1970-71	1977-78	Increase in per cent over 1960-61
1	Primary (Enrolment' 000)	41,78	62,39	78,70	86
2	Secondary (Enrolment' 000)	8,58	19,37	27,00	316
3	Higher (Enrolment' 000) (all types)	1,11	3,28	5,12	461

The employment exchange statistics reveal the following growing demand for employment:

Serial No.	Educational level	Decem-ber 1970	Decem-ber 1974	Decem-ber 1975	Decem-ber 1976	Decem-ber 1977	Decem-ber 1978
1	Matriculates & Intermediates	1,15,265	3,15,851	3,56,307	3,96,557	4,05,025	4,19,250
2	ITI trained	..	14,058	17,970	20,345	21,059	26,262
3	Engineering Diploma-Holders	..	1,375	1,604	1,942	1,577	2,180
4	Engineering Degree Holders	13,571	1,335	1,364	863	1,035	1,081
5	Other Graduates	..	51,246	57,215	69,592	80,177	94,469
6	Post-Graduates	1,034	4,483	5,837	6,777	8,297	9,210
	Increase in percentage	1,29,872	3,88,348	4,40,297	4,96,076	5,17,170	5,52,452
			+13.4%	+12.72%	+4.2%	+6.5%	

It will be evident that the figure of employment-seekers, who are educated up to Matric, but who are below degree-holders, has shot up from 1,15,265 to over 4.19 lakhs, i.e., increase by over five times between December 1970 and December 1978, while the figure of graduates other than Engineering graduates has increased from about 51,000 in 1974 to 94,000 in 1978, i.e., nearly by 85 per cent while the post-graduates have increased from 1,000 in 1970 to over 9,000 in 1978, i.e. by nine times. The majority of the employment seekers on their registers of employment exchanges are now Matriculates and above, while ten years ago, the majority of them were illiterates or less than matriculates. One of the reasons, of course, is that the employment exchanges are located in urban areas and the educated people are choosy in regard to their employment and above all, the employment exchange is the single official agency in the State for placing candidates in the organised sector. It is, however, well established that the unemployment rate among the educated in particular and in the urban areas is higher and is growing at a higher rate. The average waiting period for a fresh graduate is now more than a year, while it was about eleven months at the beginning of this decade. Indeed, the graduates and diploma-holders on the regular registers of employment exchanges, who are unemployed during a period of four years (if he belongs to backward class) of five years (in other cases), and who were considered eligible for grant of an honorarium of Rs. 100 per month, if only they worked for four hours a day, and fifteen days

seekers, who are educated shot up from 1,15,265 to between December 1970 and an Engineering graduates in 1978, i.e., nearly by 85 in 1,000 in 1970 to over employment seekers on matriculates and above, while less than matriculates. exchanges are located near to their employment the official agency in the it is, however, well estab- lished in particular and rate. The average waiting while it was about eleven graduates and diploma- ges, who are unemployed ward class) of five years grant of an honorarium rs a day, and fifteen days

in a month, were 3,302. About 75 per cent of them are from Nagpur Region, as will be revealed by the following statement:

Scheme of Financial Assistance to Educated Unemployed.

Divisionwise figures as on 31st March 1979

Division	Graduates & Diploma Holders		Matriculates	
	Eligible	Assistance given	Eligible	Assistance given
Bombay Division ..	247	37	28,641	6,446
Pune Division ..	409	148	9,767	4,723
Aurangabad Division ..	548	250	15,258	9,091
Nagpur Division ..	2,098	1,071	35,821	21,320
Total ..	3,302	1,506	89,487	41,580

EMPLOYMENT POSITION

The growth of employment over the last few years in the organised sector, where educated people seek employment in great earnest, is not very encouraging. The following table shows that the growth of employment in the Private Sector is almost at a standstill, while the overall annual compound growth is only 2.3 per cent for the period 1974 to 1977.

(Figures in Lakhs)

Year	Public Sector	Private Sector	Total
1974 ..	16.03	12.14	28.17
1975 ..	16.47	11.85	28.32
1976 ..	17.44	11.94	29.38
1977 ..	18.37	11.98	30.35
1978 (up to June 1978) ..	20.14	12.10	32.24

The share of the public sector in providing employment in organised sector has increased from 57 per cent in 1974 to 62 per cent in 1978. It is not surprising that educated should look increasingly to Government for jobs.

The growth among the workers in the factory sector, in the last few years in particular, has been low and is about 2.3 per cent average for the period 1975 to 1977.

Employment in Industries in Maharashtra State

	Average daily number of workers employed								
	1951	1956	1971	1975	Half yearly 1976	1976	Half yearly 1977	1977	Half yearly 1978
All Industries ..	7,874	4,793	9,977	10,147	10,371	10,481	10,406	10,679	10,794

The following figures relating to the growth of employment in the establishments registered under the Shops and Establishments Act show an average annual growth of 8 per cent from 1975-76 to 1979-80.

Empolyment in establishments covered by Shops and Establishments etc.

	1975-76	1976-77	1977-78	1978-79	1979-80 (Estimated)
No. of workers covered under the Shops and Establishments Act, 1948.	10,25,401	11,27,941	12,42,642	13,90,427	13,54,700

Even against this background, the rush for securing admissions to higher professional institutions has been steadily mounting not with standing the fact that the Government of India have strictly controlled the number of seats in the Medical and Engineering Colleges as also in Engineering Polytechnics. The pressure on the Government to increase the intake in higher education is steadily mounting. Increase in intake of Industrial Training Instituties is demanded all over, without consideration of the limited growth of industries in the organised sector where the ITI-trained boys are best used.

VOCALISATION OF EDUCATION

We are then involved in a vicious circle. The phenomenal increase in higher education, demanded a growing number of students, for whom education is very cheap and passing of examinations not particularly difficult, compels the State to open larger number of higher educational institutions involving higher outlays and subsidies. The increase in seats in or the number of institutions at a rapid rate inevitably reduces the quality of education. The large output of these institutions does not easily find demand in the employment market, and the Government of the public sector, which is increasing its share of absorption of labour in the market, is hard put to meeting the problem of unemployment of highly educated people. The recruitment rules framed at a time when the degree-holders were easily available, are not reformed to provide for lower qualifications, even if the nature of the job is such as can be entrusted to them.

The White Paper on Policy of Education issued recently by Government of India emphasises the delinking of degree from employment, making education more work-based rather increasing vocationalisation in order that persons are made work-oriented, and increasing the basic education, while restricting the higher education. In Maharashtra we have started vocationalisation of education at the Higher Secondary stage only last year; Government has covered barely 4 per cent of the students who are undergoing Higher Secondary education. It is not easy to change the entire education system, as this change

R 1979

employment in the establishments Act show an average of 2.

and Establishments etc.

1978-79	1979-80 (Estimated)
642	13,90,427
	13,54,700

giving admissions to higher education not with standing the rolled the number of seats in Engineering Polytechnics; intake in higher education; Industrial Training Institutes is limited growth of industries are best used.

nominal increase in higher education, for whom education particularly difficult, compels educational institutions involving in or the number of institutions of education. The large demand in the employment sector, is increasing its share of meeting the problem of unemployment rules framed at a time not reformed to provide for success as can be entrusted

recently by Government of Government, making education on in order that persons education, while restricting started vocationalisation of it year; Government has undergoing Higher Secondary education system, as this change

has to first start with the teachers, who are themselves the product of the outmoded education system and who are not easily amenable to a changed outlook as also behaviour required by the new system of "Learn-to-do". In the meanwhile, we are going to face with a peculiar situation in Maharashtra, which is notorious for immobility of its educated people in moving out to other States or even other countries in search of means of livelihood, of increasing demand from the State and the organised sector of jobs in service sector.

Gist of Important Notifications Under Labour Laws

A. Industrial Disputes Act, 1947

1. *Delegation of powers to Officers of the Commissioner of Labour—(a) Section 10(1) and 12(5).*—Government of Maharashtra hereby directs that the powers exercisable by it under the above sections of the Act, shall, in relation to the Industrial Disputes relating to the matter specified in item 3 of the Second schedule and the matter so far as it concerns retrenchment in item 10 to the Third Schedule to the said Act, be exercisable also by each of the Officers specified in column 2 of that schedule hereto in respect of the areas specified against him in column 1 of that schedule provided the matter concerns retrenchment of 10 or less than 10 workmen.

E. Bombay Industrial Relations Act, 1946

1. *Appointment of Assistant Registrar of Unions under the Act—(a)* The Commissioner of Labour has appointed Smt. P. D. Singh to be the Assistant Registrar of Unions for all the local areas in the Vidarbha Division of the State and confers on her all the powers of the Registrar of Unions under the Act for the said Local Areas.

(Notification No. CL/BIR/NTF/1179/H.O. III(B), dated 30th May 1979, published in MGG., Part I-L, dated 12th July 1979, page 3688.)

F. Working Journalists and other Newspapers Employees' (conditions of service) and Miscellaneous Provisions Act, 1955.

1. *Publication of Rules under the Act.—(a)* The Central Government has made the following Rules, namely :—

The Working Journalists and Other Newspaper Employees' Tribunal Rules, 1979.

2. *Calling of parties.*—A Tribunal constituted under Section 13AA or, as the case may be under section 13DD, of the Working Journalists and Other Newspaper Employees' (Conditions of Service) and Miscellaneous Provisions Act, 1955 (45 of 1955), shall, subject to the provisions of rule 3, call at such date, time and place as may be appointed by it, from time to time, the parties representing employers in a newspaper establishment and the parties representing the working journalists. Or, as the case may be, the non-journalist newspaper employees in such newspaper establishment.

3. *Notice.*—Not less than ten days before the date fixed by the Tribunal for calling the parties, a notice containing the date, time and place of the meeting, together with a list of business to be conducted at the meeting, shall be sent to both the parties referred to in rule 2 by an officer authorised by the Tribunal in this behalf.

4. *Proceedings before the Tribunals.*—The proceedings before the Tribunal shall ordinarily be open to the public :

Provided that the Tribunal may, at any stage, direct that any witness shall be examined, or its proceedings shall be held in camera.

5. *Summoning of witness and production of documents.*—(1) The Tribunal may summon any person to appear as a witness in the course of any inquiry. Such summons may require the witness to appear before it on a date specified therein and to produce any books, papers or other documents and information in his possession or under his control relating in any manner to the enquiry.

(2) A summons under sub-rule (1) may be addressed to an individual or an organisation of employers or a trade union of working journalists or, as the case may be of non-journalists newspapers employees, or other workmen as the Tribunal may think fit.

(3) A summons under this rule may be served—

(a) in the case of an individual, be being delivered or sent to him by registered post; and

(b) in the case of an organisation or, as the case may be trade union, referred to in sub-rule (2) by being delivered or sent by registered post to the Secretary or other principal Officer of the organisation or trade union, as the case may be.

6. *Expenses of witnesses.*—Every person who is summoned and appears before the Tribunal shall be paid by the Tribunal such sum of money as appears to the Tribunal to be sufficient to defray the travelling and other expenses incurred by the person so summoned in passing to and from the place where he is required to attend.

(Notification No. WJA. 1079/(5949)/Lab-4, dated 4th May 1979; published in MGG., Part I-L, dated 12th July 1979, pages 3684 and 3685.)

II. *Appointment of Inspectors under the Act.*—(a) Government of Maharashtra has appointed the officers mentioned in column 1 of the Schedule appended hereto be Inspectors for the purpose of the Act and assigned them the jurisdiction over the areas respectively specified against them.

II. *Publication of the Amendment Scheme.*—(a) Central Government has made the scheme called the Employees' Provident Fund (Amendment) Scheme, 1979. In clause (b) of sub-para (3) of para 1 of the Employees' Provident Fund Scheme, 1952, after sub-clause LXXXIV, the following sub-clause shall be inserted namely :—

"LXXXV" as respects lignite mines specified in the notification of the Government of India, in the Ministry of Labour G. S. R. 31, dated the 16th December 1978, come into force on the 6th January 1979.

Explanatory Memorandum

The Neyveli Lignite Corporation is an integrated undertakings in as much as it has mines as well as factory establishments. The employees engaged in mines of the Corporation were covered under the Coal Mines Provident Funds and Miscellaneous Provisions Act, 1948 and those employed in factory were covered under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952. On the request of the workers and the employer, it has since been decided that both the mines and the factory of the Corporation should be brought under one Provident Fund Scheme. Accordingly *vide* Government of India in the Ministry of Labour Notification bearing G. S. R. Number 31, dated the 16th December 1978, the application of the Neyveli Coal Mines Provident Fund Scheme, 1966, has been rescinded and the lignite mines of the Corporation have also been covered by the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, with effect from the 6th January 1979, the date from which the Neyveli Coal Mines Provident Fund Scheme, 1966 has been rescinded. The retrospective application shall not in any way affect adversely the interest of either the employer or the employees concerned.

(Notification No. EPF. 1079(5945)/Lab.-4, dated 24th April 1979, published in *Maharashtra Government Gazette*, Part I-L, dated 19th July 1979, page 3859.)

III. *Corrigendum.*—(a) In Government Order, Industries and Labour Department, No. EPF. 1174/197908/Lab.-IV, dated the 13th January 1975, published in Part I-L of the *Maharashtra Government Gazette*, dated the 20th February 1975 at page 895 for the existing condition (i), the following should be substituted as condition (i) :—

"(i) The employer shall in respect of the said employees maintain such accounts, submit such returns, provide such facilities for inspection, pay such inspection charges and invest provident fund collections in such manner as the Central Government shall direct."

(Notification No. EPF. 1179(5921)/Lab.-4, dated 24th April 1979, published in *Maharashtra Government Gazette*, Part I-L, dated 19th July 1979, page 3870.)

(K) Employees' State Insurance Act, 1948.

I. *Exemption of individual under the Act.*—(a) Government of Maharashtra has exempted Shri Ramesh Bhalchandra Modak, Shri Baban Baburao Bhilare and Shri Vilas Kondaji Raut, the employees of Messrs. Kirloskar Oil Engineers Ltd., Pune, Code No. 33-3144, who have been deputed to Germany by the employer on official duty as the Employees' State Insurance Corporation, cannot provide any benefits to the employees on their duty outside India for a period of one year with effect from 8th November 1978 to 7th November 1979 and 13th January 1978 to 12th January 1979, respectively or other date of their return from Germany whichever is earlier.

(Notification No. SIA. 1779/1478/Lab.-II, dated 5th May 1979, published in *Maharashtra Government Gazette*, Part I-L, dated 19th July 1979, page 3861.)

II. *Exemption of the establishment under the Act.*—(a) Government of Maharashtra after consultation with the Employees' State Insurance Corporation, and having found that employees of Messrs. M. O. T. Diesel Power House, Butcher Island, Bombay are otherwise in

Consumer Price Index Numbers for Working Class for July 1979

BOMBAY*

351—A rise of 7 points.

In July, 1979, the Consumer Price Index Number for Working Class (New Series) for the Bombay Centre with base January to December 1960 equal to 100 was 351 being 7 points higher than that in the preceding month. The index relates to the standard of life ascertained during the year 1958-59 family living survey at the Bombay Centre.

The index number for the food group increased by 13 points to 377 to a rise in the average prices of jowar, bajra, gramdal, coconut oil, groundnut oil, goat-meat, dry fish, eggs, chillies, onion and sub-group index numbers for vegetables and fruits.

The index number for pan, supari tobacco etc. group decreased by 17 points to 380 due to a fall in the average price of pan-leaf only.

The index number for the fuel and light group increased by 3 points to 438 due to a rise in the average prices of fire wood and charcoal.

The house rent survey for six months ending July 1979 was conducted by N. S. S. O. in the month of December 1979 and compiled by labour Commissioner's Office, Bombay. Accordingly the index number for housing increased by 5 points to 158.

The index number for the clothing, bedding and footwear group decreased by 1 point to 361 due to a fall in the average prices of saree, shirting, long cloth and markin.

The index number for the miscellaneous group remained steady at 284.

*SOLAPUR

368—A rise of 12 points

In July 1979, the consumer Price Index Number for Working class (New series) for the Solapur centre with base January to December 1960 equal to 100 was 368 being 12 points higher than that in the preceeding month. The index relates to the standard of life as-certained during the year 1958-59 family living survey at Solapur city.

The index number for the food group increased by 17 points to 388 due to a rise in the average prices of Jawar, gramdal, groundnut oil, Vanaspati, dry chillies, tamarind, onions, sugar, gur, Bhajia, Jalebi and rise in the index number of vegetable and Fruits sub-group.

The index number for the Pan, Supari, tobacco etc. group decreased by 5 points to 347 due to a fall in the average Prices of Pan Leaf only.

The index number for the fuel and light group increased by 1 point to 432 due to a rise in the average Prices of Coal only.

Six monthly house rent survey conducted by N.S.S.O. and reported by the Director Labour Bureau, Simla (ending June 1979) Accordingly the index, number for housing increased by 7 points to 207.

The index number for the clothing, bedding and footwear group increased by 6 points to 398 due to a rise in the average prices of saree, Shirting, long Cloth, Markin, and trouser cloth.

The index number for the miscellaneous group increased by 3 points to 281 due to a rise in the average prices of hair oil, toilet Soap, utensils copper, and Durrie.

CONSUMER PRICE INDEX NUMBERS (NEW SERIES) FOR WORKING CLASS FOR SOLAPUR CITY

(Average prices for the calendar year 1960=100)

Groups	Weight proportional to the total expenditure	Group Index Numbers	
		June 1979	July 1979
I-A. Food	63.0	371	388
I-B. Pan, Supari, Tobacco, etc.	3.4	352	347
II. Fuel and Light	7.1	431	432
III. Housing	5.2	200	207
IV. Clothing, Bedding and Footwear	9.0	392	398
V. Miscellaneous	12.3	278	281
Total	100.0		
Consumer Price Index Number	356	368

*Details regarding the scope and method of compilation of the index may be seen on pages 607 to 612 of December 1965 issue of Labour Gazette. For Errata see page 897 of January 1966 issue.

Note.—For arriving at the equivalent of the old index number 1927-28=100, the new Index should be multiplied by the linking factor of 3.82.

NAGPUR*

346—A rise of 7 points

In July 1979, the consumer Price Index Number for working class (New series) for the Nagpur Centre with base January to December 1960 equal to 100 was 346 being 7 points higher than that in the preceding month. The index relates to the standard to life ascertained during the year 1958-59 Family living survey at Nagpur city.

The index number for the food group increased by 11 points to 356 due to a rise in the average prices of arhaddal, gramdal, moongdal, gingelli oil, groundnut oil Linseed oil, Onions Sugar, gur and rise in the index number of vegetable and fruits sub group.

The index number for the Pan Supari, Tobacco etc. decreased by 20 points to 347 due to a fall in the average price of pan leaf only.

The index number for the fuel and light group increased by 7 points to 373 due to a rise in the average prices of firewood and Coke.

Six monthly house rent survey conducted by N.S.S.O. and reported by the Director, Labour Bureau Simla (ending June 1979). Accordingly the index number for housing increased by 6 points to 193.

The index number for the clothing, bedding and footwear group increased by 2 points to 412 due to a rise in the average prices of dhoti, trouser cloth, and pajama.

The index number for the miscellaneous group increased by 33 points to 281 due to a rise in the average prices of doctor's fee, medicine, cot, trunk and rickshaw charges.

CONSUMER PRICE INDEX NUMBER (NEW SERIES) FOR WORKING CLASS FOR NAGPUR CITY

(Average prices for the calendar year 1960=100)

Groups	Weights proportional to total expenditure	Group Index Numbers	
		June 1979	July 1979
I-A. Food	57.2	356	367
I-B. Pan, Supari, Tobacco, etc. ..	3.8	467	347
II. Fuel and Light	5.7	366	373
III. Housing	6.6	187	193
IV. Clothing, Bedding and Footwear	10.9	410	412
V. Miscellaneous	15.8	248	281
Total	100.0		
Consumer Price Index Number..	339	346

*Details regarding the scope and method of compilation of the index may be seen on pages 771 to 779 of January 1966 issue of Labour Gazette.

Note.—For arriving at the equivalent of the old Index Number (1939=100) the new Index Number should be multiplied by the linking factor viz. 5.22.

AURANGABAD

379—rise of 18 points.

In July 1979, the Consumer Price Index Number for working class (New Series) for Aurangabad centre with base year January to December 1961, equal to 100 was 379 being 18 points higher than that in the preceding month. The index relates to the standard of life ascertained during the year 1958-59 family living survey at Aurangabad centre.

The index number for the food group increased by 26 points to 413 due to a rise in the average prices of rice, wheat, jowar, durdal, gramdal, masurdal, groundnut oil, karad oil, turmeric, chillies dry, tamarind onions, tomatoes, vegetables sugar and gur.

The index number for the fuel and light group remained steady at 401.

Six monthly house rent survey was conducted by the office of the Commissioner of Labour, Bombay in the month of July 1979. Accordingly the index number for housing increased by 6 points to 272.

The index number for the clothing and footwear group remained steady at 359.

The index number for the miscellaneous group increased by 10 points to 297 due to rise in the average prices of pan leaf and bidi.

CONSUMER PRICE INDEX NUMBERS FOR WORKING CLASS
FOR AURANGABAD CENTRE

(Average prices for the calendar year 1961 = 100)

Groups	Weight proportional to total expenditure	Group Index Number	
		June 1979	July 1979
I. Food	60.72	387	413
II. Fuel and Light	7.50	401	401
III. Housing	8.87	266	272
IV. Clothing and Footwear	9.29	359	359
V. Miscellaneous	13.62	287	297
Total	100.00		
Consumer Price Index Number	361	379

*Details regarding scope and method of compilation of the index will be found on pages 1130 to 1134 of March 1966 issue of Labour Gazette.

Note.—To obtain the equivalent old index number on base August 1943 to July 1944=100, the new index number on base 1961=100 should be multiplied by the linking factor viz. 2.22.

NANDED

363—A rise of 5 points.

In July 1979 the Consumer Price Index number for working class (New series) for Nanded centre with base year January to December 1961 equal to 100 was 363 being 5 points higher than that in the preceding month. The index relates to the standard of life ascertained during the year 1958-59 family living survey at Nanded centre.

The index number for the food group increased by 7 points to 387 due to a rise in the average prices of wheat, jowar, groundnut oil, salt and tamarind.

The index number for the fuel and light group increased by 5 points to 468 due to a rise in the average price of kerosene oil.

Six monthly house rent survey was conducted by the office of the Commissioner of Labour, Bombay in the month of July 1979. Accordingly the index number for housing remained steady at 196.

The index number for the clothing the footwear group increased by 1 point to 341 due to a rise in the price of sarree.

The index number for the miscellaneous group increased by 4 points to 299 due to a rise in the average price of pan-leaf.

CONSUMER PRICE INDEX NUMBERS FOR WORKING CLASS FOR
NANDED CITY

(Average prices for the calendar year 1961 = 100)

Groups	Weight proportional to total expenditure	Group Index Number	
		June 1979	July 1979
I. Food	61.46	380	387
II. Fuel and Light	5.88	463	468
III. Housing	4.62	196	196
IV. Clothing and Footwear	12.22	340	341
V. Miscellaneous	15.82	295	299
Total	100.00		
Consumer Price Index Number	358	363

*Details regarding the scope and method of compilation of the index will be found on pages 1107 to 1112 of the March 1966 issue of *Labour Gazette*.

Note.—To obtain the equivalent old index number on base August 1943 to July 1944 = 100 the new index number on base 1961 = 100 should be multiplied by the linking factor viz. 2.45.

JALGAON*

353—A rise of 14 points.

In July 1979, the Consumer Price Index Number for working class (New Series) for Jalgaon centre with base year January to December 1961 equal to 100 was 353 being 14 points higher than that in the preceding month. The index relates to the Standard of life ascertained during the year 1958-59 family living survey at Jalgaon Centre.

The index number for the Food group increased by 23 points to 387 due to a rise in the average prices of rice, wheat, jawar, turdal gramdal, groundnut oil, potatoes, onions, vegetables and Banana, Sugar and Gur.

The index number for the fuel and light group remained steady at 420.

Six monthly house Rent survey was conducted by the office of the Commissioner of Labour, Bombay in the month of July 1979, accordingly the index number for housing remained steady at 158.

The index number for the clothing and footwaea group increased by 1 point to 331 due to a rise in the average prices of Shoes and Chappal.

The index number for the miscellaneous group has remained steady at 282.

PUNE*

328—A rise of 5 points

In July 1979 the Consumer Price Index Number for working Class (New Series) for Pune Centre with base year January to December 1961 equal to 100 was 328 being 5 points higher than that in the preceding month. The index relates to the standard of life ascertained during the year 1958-59 family living Survey at Pune Centre.

The index number for the food group increased by 10 points to 361 due to a rise in the average prices of turdal, gramdal, groundnut oil, karad oil, Vanspati Dalda, Mutton, Fish, eggs, ghee, dry chillies potatoes, onion, Brinjal, Tomatoes, vegetables, Banana and sugar.

The index number for fuel and light increased by 1 point to 408 due to a rise in the average price of charcoal.

Six monthly house rent survey was conducted by the office of the Commissioner Labour Bombay in the month of July 1979. Accordingly the index number for housing has remained steady at 130.

The index number for the clothing and footwear group remained steady at 363.

The index number for the miscellaneous group increased by 1 point to 259 due to a rise in the average prices of supari and cigarettes.

n Textile Industry during

**INDUSTRIAL DISPUTES IN MAHARASHTRA STATE
DURING JUNE 1979**

	May 1979	June 1979	June 1978
No. of Disputes ..	26	30	31
No. of Workers involved ..	7,618	35,83	23,994
No. of Man-days lost ..	52,248	5,3176	2,06,372

Industry-wise classification is given below:—

Name of the Industry Group	Number of disputes in progress			Number of work people involved in all disputes	Aggregate man-days lost in
	Started before beginning of the month i.e. before June 1979	Started during the month i.e. June 1979	Total		
1	2	3	4	5	6
Textile	2	2	221	1,274
Engineering	5	6	11	1,441	21,304
Miscellaneous	4	5	9	1,236	20,889
Chemical	5	3	8	685	9,709
June 1979 Total ..	14	16	30	3,583	53,176
May 1979 Total ..	12	14	26	7,618	52,248

4 of the disputes arose over questions of "pay, allowances and bonus issues", 9 related to "Retrenchment and grievances about personnel", nil dispute on "leave and hours of work" and the remaining 17 were due to other causes.

Out of the 15 disputes that terminated during the course of the month, 8 were settled either entirely or partially in favour of the workers and 7 in favour of the employers.

*The word "Work stoppages" in the official sense means interruption of work and it is hereby used in that sense as virtually synonymous with "Strike". In compiling statistics of the industrial disputes, however, disputes in which 10 or more persons are involved are included.

NIL

BENEFITS UNDER THE EMPLOYEES' STATE INSURANCE SCHEME—REVIEW FOR THE MONTH OF JULY 1979

The Employees' State Insurance Scheme applies to 26 Centres in the State of Maharashtra and provides protection to 15,73,677 workers in the event of employment injury, Sickness and Maternity. This protection is made available in two ways, namely, by provision of medical care and cash benefits when needed. During the month of July 1979, 6,722 Insured persons received Rs. 13,38,141.95 cash benefits due to employment injuries. This includes 2,226 persons who were in receipt of Pensions for Permanent Disablement and 922 persons who were in receipt of Dependant Benefit as dependants of deceased Insured persons. During the month, 8,592 accidents were reported as against 9,706 during the preceding month.

Comparatively, fewer persons need the employment injury benefits but a fairly large number need Cash Benefit in the event of Sickness. During July 1979, 59,264 claims were received and an amount of Rs. 51,62,435.87 was paid out as Sickness Benefit. During the preceding month 1,16,200 claims were received and an amount of Rs. 89,26,511.15 was disbursed as Sickness Benefit.

Some Insured Persons suffering from T.B., Mental, Malignant, other long term diseases etc., require more attention and they are being paid additional benefit called Extended Sickness Benefit. During the month an amount of Rs. 4,84,482.65 paid towards this benefit.

During the month 154 Insured Women workers claimed Rs. 2,15,770.20 by way of Maternity Benefit. The attendance at the dispensaries as per certificates received was 2,57,998 during the month.

During the month Funeral Benefit in 71 cases amounting to Rs. 7,999.95 was paid.

During the month Confinement Charges in respect of wives of Insured Persons amounting to Rs. 39,720.00 were paid.

During the month an amount of Rs. 3,030.00 was paid as Enhanced Sickness Benefit to 23 Insured Persons who had gone under sterilisation operation for Family Planning.

For recovery of arrears of Contribution under the Scheme, Legal proceeding had to be initiated in 13 cases against defaulting employers.

(Faint, mostly illegible text on the right page, possibly bleed-through or a separate document. Some legible words include: "BENEFITS UNDER THE EMPLOYEES' STATE INSURANCE SCHEME", "REVIEW FOR THE MONTH OF JULY 1979", "LABOUR GAZETTE", "SEPTEMBER 1979".)

INDIAN JOURNAL OF INDUSTRIAL RELATIONS

In the context of the present emphasis on rapid industrialisation in India, and the complexity of problems that have risen in consequences, industrial relations studies directed towards the understanding of these problems and their implications have assumed special significance. It is with a view to locating such problem areas, and providing reliable guidelines for formulating future policies that the Shri Ram Centre for Industrial Relations was founded for in 1963.

The research results of the Centre are published in several forms. The quarterly *Indian Journal of Industrial Relations* is one such. The journal is, thus, devoted to the promotion of scientific study and advancement of knowledge in the field of industrial relations, besides being a forum for interdisciplinary discussion. In other words, it serves as a bridge between the scholar and the practitioner.

The journal is published in July, October, January and April. It is currently in its third year of publication.

Annual Subscription :
India Rs. 30·00
Foreign \$ 8·00
